

WIBMO
HEXA
PREPAID PLATFORM

During the last few years, we have witnessed not just a steep rise in digital and cashless payment transactions but also the proliferation of innovations in payments.

Along with new prepaid opportunities Banks, telecom companies, and FinTechs, as well as merchants, are also experiencing intensified competition. To succeed, just developing a strong strategy is not enough. Companies need a reliable partner who can provide a secure, robust, dependable, and stable prepaid issuing system.

Enhance your prepaid card and wallet issuance capabilities with Wibmo's **HEXA Prepaid Platform.**

Wibmo's prepaid platform, Hexa, is feature-rich, offers high levels of security, compliance, and resilience, and enables businesses to innovate and scale.

Hexa is a secure and dependable card issuing system that supports a wide range of prepaid use cases and lets you focus on innovating and scaling your business.

Built on experience gathered over two decades, Hexa is modular by design, and with its extensive restful API library, it is poised to address your every specific payment need.

Hexa Advantages
